What on Earth
Is the reason people will not, cannot, or do not see any difference in cheap nos trims put up by Cheap John houses or irresponsible parties at enormous profits, rather than take a medicine of world wide reputation and one that is giving universal satisfaction at equal price? No medicine in the world is giving such unparalleled satisfaction for purifying the blood as BEGG'S BLOOD PURIFIER & BLOOD MAKER, and every bottle that does not do its work, will cost you nothing. W. H. Chedie, Druggist

How Can Parents
allow their children to cough and strain and cough and calmly say: "Oh! it's only a little cold," and keep giving them cheap and dangerous medicines, until they are down with lung fever or consumption, when they can be so easily relieved by BEGG'S CHERRY COUGH SYRUP? It has no superior and few equals. W. H. Chedie, Druggist.

For Rent.
Two furnished rooms, Cor. Musser and Plaza streets, immediately opposite the Capitol. Apply on premises. Rent cheap.

Cough! and Cough! and Cough!
What in the world is the reason you will cough and keep coughing and still keep trying inferior medicines when BEGG'S CHERRY COUGH SYRUP will positively relieve your cough at once? This is no advertising scheme, but an actual fact, and we guarantee it. W. H. Chedie, Druggist.

ADVICE TO MOTHERS.—Mrs. Winslow's Soothing Syrup should always be used for children teething. It soothes the child, softens the gums, allays the pain, cures wind colic, and is the best remedy for diarrhoea. Twenty five cents a bottle.

Language is hardly strong enough to express my admiration of the merits of Chamberlain's Cough Remedy. It is the best remedy for croup and whooping cough I have ever used. During the past eighteen years I have tried nearly all the prominent cough medicines on the market but say, and with pleasure too, that Chamberlain's Cough Remedy is the best of all. THOMAS RHODES, Bakersfield, California. For sale by G. C. Thaxter.

The Boyd brothers have offered the finest meats obtainable to their customers and as they raise their own beef, veal, mutton and pork, they can not only select the most choice meats but can place it at a very low rate. The boys are well known throughout this section and will endeavor to please their customers. j29tf

LOST NO CATTLE.—John R. Vail, manager and principle owner of the Santa Anita Land and Cattle Company, says the Chronicle, whose range is east of Fort Churchill, formerly known as the Vail ranch, had 25 tons of hay fed daily to the company's cattle during the months of December and January and did not lose a single head. The cattle are now thriving splendidly by grazing on the range. Manager Vail made a trip to the ranch during the height of the storm.

MUST SKIP OR STARVE.—It things don't change pretty soon we'll have to skip out and inflict ourselves upon ranchers at Mono Lake, who at least have plenty of potatoes and live stock. But as it takes a pretty good man got down there, even on snow shoes, the old men and cripples will have to be left behind to starve, unless we eat them before we go. So says Jim Townsend. j43tf

DAKOTA WANTS LOTTERY.

And the Chances are She Gets the Article.

BISMARCK, N. D., Feb. 5th.—The excitement today was unprecedented in the history of Northwestern Legislation. The Senate started to work early in the day on the Lottery Bill, and no other business was transacted.

The noon train from the East brought in a large delegation of north Dakota ministers, loaded down with thousands of tracts, etc. There was also a number of visitors from all parts of the country. The ministers were accompanied by a large number of those agitators of good morals, and their express purpose was to combine their powers to defeat the lottery scheme.

All day the galleries of the Senate were filled by an anxious crowd of people, as it had been whispered that some racy fun and excitement was to be in order when the lottery bill came up for passage. They were not disappointed. A most bitter and tenacious fight was waged all afternoon and kept the Senate in session until evening.

The opposition made numerous frantic efforts to effect an adjournment, but in vain, and it was due a great deal to the attending weariness, that a number were won over to the lottery side. The bill finally passed the Senate this evening by a vote of 22 to 8.

Petitions from all over north Dakota were read, praying the Senate to pass this bill, and there were other communications condemning it in the roughest terms, claiming the existence of lotteries in North Dakota would be an everlasting blot upon the fair name of the State. They availed for naught however. The bill will probably pass the House with large corresponding majority and when it reaches Governor Miller he will return it without approval or signature. The Legislature is in readiness for this emergency and will immediately pass it over the Governor's veto. Excitement in the city tonight is intense and rapidly increasing. Every citizen is wild with enthusiasm at the prospect of securing such a "gigantic institution as this lottery."

CLARA BELL REFUSED.—The defendant's motion for a new trial in the celebrated divorce suit of R. H. McDonald was denied by Judge Hunt, on Wednesday, a very brief oral opinion being found sufficient to review the exhaustive argument and testimony heard in the case. The principal ground upon which the motion for a new trial was based was newly discovered evidence.

SUICIDE AT WINNEMUCCA.—E. M. Bennett, formerly a conductor on the S. P. railroad, committed suicide Wednesday morning by severing the jugular vein with a razor. He had been discharged by the railroad company for drunkenness some months ago, and recently returned from Oakland, where his family resides.

A STEAM SLEIGH.—A resident of Sissons, Cal., has invented a steam sleigh, operated by a six horse power engine, that travels at a speed of thirty miles an hour over a depth of four feet of snow, and glides as gracefully as a swan over any depth. The cost of the sleigh is only \$400—about twice the sum charged for a first-class cutter.

JACK-RABBITS FEEDING ON HAY.—Jack-rabbits are becoming quite a nuisance around the hay stacks in some parts of Independence Valley. They appear in squads of half a dozen or so, and that number will get away with as much hay as a full grown cow or steer.—Times-Review.

DR. BOWERS SUES.—Suit has been commenced in the United States District Court of San Francisco by Dr. J. Milton Bowers against the Supreme Council of the American Legion of Honor for \$5,000, with interest thereon from December 1, 1885. The case is the same one that was commenced by the plaintiff in the State Courts some time ago, and it has been transferred to the Federal tribunal. The complaint sets forth that the \$5,000 sued for is the money, that should have been paid to him, owing to the death of his wife, Cecelia Bowers, and which is known as life insurance money. It is rumored that the setting of the case in the Federal Courts will lead to a stubborn contest, and it is not improbable that the entire Bowers case will be reopened in hearing the matter.

THE TIGRESS.—There was a large audience last evening to witness the Tigress. The play is one of great power and replete with striking scenes. Miss Phoebe Davies as the flower girl, was the very impersonification of sweet innocence and played the role with the fine success that characterizes all of her carefully studied and well modulated work. Miss Archer was the lithe and sinuous physical and moral Tigress and played with great power. Hugo Toland and Miss Stevens did some excellent comedy work and the character of the scheming Italian gambler was in good hands.

DEHORNING CATTLE.—It appears from exchanges that a few stockmen are still practicing the brutal system of dehorning cattle. How any persons possessed of even the commonest instincts of humanity can consent to torture poor, dumb brutes in this manner, it is a mystery to understand. If a man who practices such cruelty should be confined and have some of his finger nails pulled off with a pair of tweezers he would realize what excruciating pain an animal suffers by having its horns taken off. There should be a law making it a criminal offense to dehorn cattle.

THE MONTANA MINES.—A total force of 6,175 men are employed in the mines in and about the vicinity of Butte City, Montana. The December pay rolls of mines in that vicinity footed up a total of \$617,500. Anaconda employs 2,000 men and pays out monthly \$300,000 for employees wages. The Boston & Montana and Butte & Boston companies have a total of 1,600 employes on their pay rolls. The Parrott employs 400 miners and the Colorado and Blue Bird 250 and 300 respectively. The other companies employ from 200 to 75 monthly each.

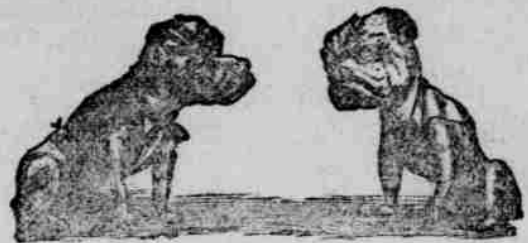

DR. BIBER HEARD FROM.—The London Tablet says that amongst other persons who were granted an audience by the Holy Father recently were Mr. Best of Philadelphia and Dr. Biber of Nevada, who are proprietors of gold and silver mines in Nevada. They brought his Holiness a large offering in money, and also expressed to the Holy Father the devotion which their Catholic workmen had for him. The Pope took great interest in what they told him about the mines, and asked many questions with regard to the way they were worked.
